Project development log.

PROJECT TITLE

Design and Evaluation of an Adaptive Multi-Model Orchestration System for Heterogeneous LLM Workloads

AUTHOR	John Gambino
ACADEMIC YEAR	2026-2027
LOG STARTED	10 October 2026

00 / HOW TO READ THIS LOG

ENTRY ID	CATEGORY	USE CASE
BUG-001	Bugs	Recording any errors, what fixed them, and subsequent tests to prevent replication (if applicable). Dedicated bugfix tests may have a linked TEST entry.
FEAT-001	Features	New feature added to the application.
TEST-001	Testing	Manual and code based testing of the application, either partial or full.
EXP-001	Experiments	Conducting experiments (eg. A/B testing) to progress the application, or to compare against existing methods.
RX-001	Research	References and information garnered from research papers and other academic sources used in development, or how they have impacted my development.
DOC-001	Documentation	Any documentation supplied with the application, excluding this project log.
DEC-001	Decisions	Decisions made when multiple options are present, usually proceeding experiments. Includes reasoning behind the decisions.
PLAN-001	Planning	Any general idea brainstorming, or amendments made to project scope.
